A telegram has been received in Shanghai (according to the Daily News) announcing that Mr. Rennie, Chief Justice of H. B. condition of health attained." He then

cites two notable cases which have come

one of tubercular laryngitis, we quote in full :

"MANSON to come here. This he was able

to do, with the result, as the patient him-

self informed me, of acquiring during his

" stay of six years such 'robust health that

"he had so far "forgotten his previous ten-

dency when he went on leave to England

"as to lead him to believe all-danger past,

"He had not been long away, however, be-

"forethe malady once more showed itself,

taking the form above indicated, and al-

though he hurried back, matters had gone

" beyond the limits of possible amelioration.

quoted as evidence of the curative proper-

ties sometimes observable in the climate,

still, when I recall the suffering generally

associated with laryugitis and its almost

"complete modification in the case under

"notice, I feel justified, as the outcome of

"most careful observation, in ascribing this

" result to climatic influences; and recording

" the fact with an appreciation readily com-

"watch cases less favourably affected."

Dr. Myens adds that while by no means as-

serting that phthisis, no matter how des-

perate its extent, can be cured by living in

Takow, he yet believes that, from causes

which be cannot entirely explain, a degree of

comfort, even in advanced cases, can be ac-

quired and the sufferings of those afflicted

with the disease greatly mitigated. The

doctor has been unable so far to arrive at a

satisfactory conclusion as to the cause of this

it is not exclusively due to the mildness or

equability of the temperature, or the in-

"cribe a good deal to the presence of sul-

phurous soid, with which the air in the

barbour and at their base on the shores of

the lagoon, just above high-water mark, are

"several sulphur springs, from which a dis-

"charge of gas takes place at all times.

"From the position of these springs in rela-

"tion to the bills, the gases emanuting from

"them are equally disseminated over the

"settlement by the winds of either monsoon.

"That of the north-east is ec .sentrated as

it passes down the funnel-like valley

"prior to reaching the settlement, while

those bille, so to speak rebound from

"them. This is a theoretical, but I do not

"think an improbable, method of accounting

"for a fact not easily explained otherwise."

The theory advanced by Dr. Myers deserves

every attention, because, as he subsequently

remarks, if tenable it goes to prove the value

of antisoptics in certain conditions in the

treatment of tuberculosis. This sadly de-

structive disease, which annually claims its

myriad victims, still utterly baffles, save in its

earliest stages, all medical skill, and the

day that sees a cure found for it will mark

GOVERNOR HENNESSY AND THE PHOTOGRAPUS.

Few persons, we should imagine, would ! able to read the report of the meeting of the good relations stand on a better footing than Legislative Council on Tuesday last without ever; America, England, and other countries a considerable degree of pain. One of the are following on each other's heels [in resort- worst results of Sir John Pore Hennessy's ing to our shores and making treaties of Administration was the great discredit he brought on the Civil Service. This was world, and by no means an innovation of our unfortunately amply illustrated on Tuesown. There is, indeed, no ground whatever for day. Two very grave and specific charges any apprehension on this score, and you may all were brought against the Governor. The of you rost perfectly tranquil and undisturbed. one charge is that the late Governor, if Let scholars attend diligently to their studies, not exactly, guilty of the malversation of and the people to their a ricultural pursuits, public funds, had been at all events guilty. of a very flagitions attempt to "cook," the accounts of the Colony, and that two officers had supported him in this by a continue just as quiet as usual, and see to it that recommendation they made in a minute. you are not the first to make a disturbance. If- The other charge is that an officer of the they begin to insult or approy you in any way. Government having made a grave though they will be dealt with in strict accordance with doubtless unintentional misstatement in the position to know the truth, having in fact the true state of things in print work done, it would have been his duty personally and then charge the cost to the departments without the cognizance of the heads of those departments. But Mr. "it was a huge blunder from beginning to "end, that when the order was given no one TRATOR replied-" That is just what I imagine it was." We do not say that a charge of premeditated malversation of the public funds would lie; what it amounts to, as regards the incurring of the expense, is simply very culpable carelessness in the mauagewhich the person concerned most probably fell through his laordinate vanity. The grave-Ever B says, committed a "huge blunder," means to conceal it from the knowledge of the expressed wishes of his chief, especially when that chief is a man of such autocratic proclivities as Governor HENNESSY. Dr. STEWART, it is true, throw up his position of Acting Colonial Secretary during the Administration of Governor Hennessy, but it is not every man who would think such a sacrifice required for the sake of principle, unless the question involved were a very, vital one indeed. As to the amount of money involved, a hundred dollars or so might-occasionally be judiciously spont in photographs in order to convey to the people. at home a substantial idea of what is being done here, but an expenditure of thousands of dollars for this purpose is altogether unnecessary and preposterous. To turn now to the other chargeagainst Governor HENNESST, which is, in plain terms, one of falsehood. Ho has said that until within recent years mendicants were dealt with in this Colony by flogging. The fact is that in the whole his-

That the comstreet letter boxes, managed by 10,478 employes. longth and breadth of the entire country .- N. C. munity of Hongkong has been most wilfully, muliciously, and falsely libelled by Sir John Pore HENNESY few if-any persons will be inclined todeny. To deal with these two grave charges specifically. It appears that on the occasion of the visit of the Royal Princes last Christmas the Governor thought fit to order a large number of expensive photographs, for what purpose does not appear—possibly to send them to certain royal and exalted personages " with Sir John Pope Hennessy's compliments." Whatever the purpose, it is certain that the person named, without considering whether the taxpayers wanted the photographs or not, decided to have them taken and let the cost fall on the taxpayers. The bill amounted to several thousand dollars and some difficulty seems to have arisen as to the account to which it should be charged. Thereupon the Governor referred the matter to the then Acting Auditor General and then Acting Colonial Treasurer, and a memorandum was made by those officers recommending that the cost premium for the end of March and Sugars at should be distributed over several accounts, the bulk of it falling on the Public Works Department and the Afforestation Department. The result of this, had the recommendation been carried into effect, would have been that money voted by the Legislative Council for very specific and useful purposes would have been diverted to a wholly different purpose and useless piece of extravagance. It appears also from the statement of the ADMINISTRATOR that this diversion of the public funds from their proper use would, had the GOVERNOR been able to carry the intended arrangement through, have been made without the official cognizance of the Secretary of longkong Fire Insurance Company's Shares-State or the Legislative Council. Surely if ever the term "attempted cooking of accounts" was justified it is in this case. Hongkong and Whampoa Dock Company's The fact, of the Governor's baving to leave the Colony and a change taking place in various offices, led to the disclosure of this glaring job. How bad the job was is seen from the extreme weakness of the defence offered in its behalf by the Hon. P. RYBLE. Mr. Ryanz says he was under the impression that the Governor was requested to send from time to time photographs of the afforestation of the island, and, he presumes, of the public buildings. Granting that such is the case, as it very possibly is, the photographs would in ordinary course be taken under direction of the heads of the departments concerned and in each case the estimated cost would appear beforehand for approval or disapproval, in the regular monthly requisitions. In this case, however, the photographs were ordered on the Governor's sole responsibility and not on the recommendation of the officers to whose departments it was afterwards sought to charge them. The Governor of a Crown Colony certainly has large powers, but in this case those powers were largely exceeded. If the GOVERNOR wanted the photographs taken the proper course would have been to call for a report from the departments concerned. Had the heads of those departments reported against the proposition, and the GOVERNOR been still determined to have the to give orders to the departments to have it done, not to give the order RYRIE says-" My own impression was that "cast up the amount," and the ADMINISment of the public funds, careleseness into men of the case against the Governor lies in what was done afterwards. Having, as Mr. he sought by underhand and discreditable those who were entitled to know of it. The best of men may make a blunder, but he must be a bad man who will endeavour to cover his blunder by cooking the public accounts. As to the two officers who made the minute on the subject recommending the course which it was attempted to follow, we are inclined to agree with Mr. PRICE that they were acting under direct and positive orders from the Governon, and that though their responsibility does not disappear altogether it is lessened by that fact. It is clear that the reference to them was merely a matter of form, and that the GOVERNOR was personally responsible for the course he adopted. Between giving advice and taking action we discern a difference, although there is responsibility in both cases. And it is not easy for an officer, though it may be his duty, to advise contrary to

BRITISH POLICY IN THE FAR EAST.

In a recent article on British policy in the Far East, the Pall Mall Gazette has advanced some rather novel propositions. Our London contemporary is of opinion that if ARAM's -revolt in Egypt has done nothing else it has taught the ordinary Briton to feel a China. deductions from what its supposes to be the true state of things in China. After expressing the conviction that the recent change in policy will be likely to effect good and appeas a powerful barrier to the Forward school, the London paper proceeds :- " The "British philanthropist will not be so ready " Foreign Office to urge the Chinese Govern-"ment to increase the facilities for British "trade in the interior will be relaxed, and " less will be heard about the paramount ne-"cessity for 'opening up' Korea. The trad-"ing community, of course, will relax none " of its importunity, but it can no longer de-" pend upon the undivided support of public "opinion. A nation that has seen how "disastrous for the Egyptian Nationalist " was the construction of the Suez Canal can " never again chafe as it chafed before when "the Chinese tear down telegraph wires and "destroy railways.". and ill-founded there are some grains of sense in the Pall Mall Gasette article. Thus, when remarking upon the possibility of what it terms the momentary relenting of the West in its exploitation of the East leading to the extension of Eastern authority over the whole of Asia, the Gazette makes the following sensible observation: - "Orientals "are quick to discern the relaxation of the "pressure brought upon them from with-"out, and no one doubts that if they believed "they had a fair chance the Chinese would "not leave a single European within their. > TANGLISH AND CHINESE DICTIONARY. WITH THE PUNTI AND MANDARIN PRONUNCIATION. An Anglo-Chinese Dictionary, published at the Daily Press Office, Hongkong.

For comprehensiveness and practical service this Work stands unrivalled. All the new words which the Chinese have of late years been Office.) Contents and value of Packages are compelled to coin to express the numerous objests in machinery, photography, telegraphy, and in science generally, which the rapid advance of foreign relations has imposed upon them, are here given in extenso. Each and every word is fully illustrated and explained, forming exercises for students of a most instructive nature. Both the Court and Punti pronunciations are given, principle hitherto attained. The typography displays the success of an attempt to make the Chinese and English type correspond in the size of body, thereby effecting a vast economy of attained, and dispensing with those vast margins farized Chinese publications. To illustrate the vast scope of the work, the following facts are submitted for consideration: Chalmers' Vocabulary contains about 16,000 Chinese characters, and Medhurst's English

and Chinese Dictionary about 100,000, whilst this work contains more than 50,000 English words, and upwards of 600,000 Chinese characters. Again, despite all the grammars and other elementary works as yet published, the student of this difficult language absolutely requires examples to display the various applications and equivalents of different words which have one general meaning. Of these examples this work contains more than five times as many as any other Dictionary hitherto pub-. For practical purposes the arrangement of the work is so complete, that a reference to its pages enables a person who understands English

to communicate effectively with natives who understand nothing but Chinese. In this respect the work will be found indispensable to all DRINTING OF EVERY DESCRIPTION-Europeans residing in China, and to the natives themselves it explains subjects fully with which very few indeed of them are perfectly acquainted. To parties resident in England and interested in China it cannot but be invaluable occasion-It comprises upwards of two thousand large A Large REDUCTION in PRICE is made

The Post Office then undertakes the duty of obtaining notice of deis requested that the letters be posted if possible at least one day before the date fixed for sailing

Persons who send Musters of Tea through the Post in Tins to requested to have them made flat or square distend of round; as it is impossible to pack round time securely in the mail bags. It is believed that the ten will travel more safely in flat time, which are not so liable as round ones to be bulged in. 4 by 3 by 14 inches is suggested as a rood size. The tins should not have sharp corners.
